

# 5<sup>th</sup> Masterclass of Extraperitoneal Robotic Prostatectomy

**September 22, 2025** | Simulation Center

## FACULTY

Estevão Lima  
Pedro Bargão  
Ricardo Leão

## COURSE MANAGER

Sofia Fraga

## TARGET

Residents and Specialists of Urology

This masterclass allows residents and urology specialists to have the opportunity to learn the various surgical steps of extraperitoneal radical and simple prostatectomy. The training consists of being in the operating room in the robot console and watching a extraperitoneal radical prostatectomy for cancer and a extraperitoneal simple prostatectomy for benign prostatic hyperplasia. The operating room of the CUF Tejo robotic surgery has two areas separated by glass, one for the robot console and one for the surgical and anesthesia table. This way the trainees will have direct access to the robot's console where the surgeon is.

In addition, to live surgical training, trainees will have an opportunity to discuss the surgical techniques observed with the specialists and answer their questions.

The participants of the masterclass of extraperitoneal robotic prostatectomy will be trained in the following:

- How to do proper operative room setup
- How to do patient preparation and positioning in extraperitoneal robotic prostatectomy
- Learn tricks and tips for performing the extraperitoneal access, placement of the trocars and docking of the "da vinci robot xi"
- Learn the surgical steps and tricks and tips for performing robotic radical prostatectomy and laparoscopic simple prostatectomy

## PROGRAMME

**08h00 - 08h10** **Welcoming remarks**  
Estevão Lima | Pedro Bargão | Ricardo Leão

**08h30 - 14h00** **Live extraperitoneal robotic radical prostatectomy (bedside / console) and extraperitoneal laparoscopic simple prostatectomy or extraperitoneal laparoscopic urethra sparing prostatectomy (bedside)**

**14h00 - 15h00** Lunch

**15h00 - 17h00** **Video analysis step by step of extraperitoneal robotic radical prostatectomy, extraperitoneal robotic simple prostatectomy, extraperitoneal laparoscopic simple prostatectomy and urethra-sparing simple prostatectomy**

**17h00 - 17h30** **Conclusions**

## LOCATION

The **Simulation Center** is located at CUF Tejo Hospital

MAIN SPONSOR:

**Johnson & Johnson**
